## FIRE HOUSE PLANS BEFORE COUNCIL TONIGHT

CHANGES IN CONSTRUCTION BEING MADE BY ENGINEER VAN WAGENEN

At tonight's session of the city council, it is probable that plans for the new fire house and water department building, to be erected on the rear of the city hall lot, will be adopted and bids for the new building ordered advertised.

City Engineer Van Wageningen has completed the alteration of the plans and specifications, which change the construction of the building to a certain extent.

The quarters of the waterworks department will be extended about six feet to the rear, to give room for the accommodation of pipe and supplies and, in addition, a small supply shed, separate from the main building, will be erected.

The new building will cost in the neighborhood of \$3,000.

J. W. Kline, the optician, will supply you with panoramic views and post cards of the Roosevelt dam. Opposite Silver Belt office.
